PROJECTS

E-Commerce website Using MERN Stack
- E-Commerce website developed using the MERN Stack (MongoDB, Express.js, React.js, Node.js) offers a robust and efficient platform for online shopping. MERN's seamless integration of front-end and back-end technologies ensures a smooth user experience, powerful data management, and scalability, making it ideal for modern e-commerce solutions.

Netflix UI
- A Netflix-inspired user interface designed with HTML and CSS, featuring sleek and intuitive design elements for browsing and watching content. Utilizes responsive layout techniques to ensure compatibility across various devices. Incorporates familiar visual cues and navigation patterns for an immersive streaming experience reminiscent of the popular entertainment platform.

Amazon UI
- Amazon UI can be replicated using HTML and CSS, mimicking its familiar layout with navigation bars, product grids, and search functionality. HTML structures the content while CSS stylizes it, achieving the iconic Amazon look. Utilizing flexbox or grid layouts, along with media queries, ensures responsiveness for various screen sizes.
